

**Notice to Attorneys and Public,**

Beginning January 3, 2011, digital audio recordings of matters held before Judge Susan V. Kelley will be made electronically available through PACER. Since recordings of the hearings will be available, Judge Kelley will no longer docket court minutes in most cases. For non-case participants, a fee of \$2.40 will be charged for downloading each digital audio file. Case participants will be entitled to one free download of each digital audio file, as part of their participation in the case.
